BELGIAN SKIN CARE EXPERTISE

The health of your skin mirrors your overall health.  
Healthy skin is supple, fresh and radiant.

Healthy skin is based on these three pillars:

## Care - Protection - Hygiene

NAQI has developed a unique range of Medical Skin Care Products specifically aimed at the dry skin of diabetes patients. NAQI Medical Skin Care Products protect, care and gently cleanse while they:

- Intensively hydrate
- Reduce the risk of infections
- Restore the natural skin barrier
- Reduce skin discoloration
- Counteract premature skin ageing

### Result:

**Your skin becomes supple, soft and radiant with reduced risk of infections.**

The efficiency of NAQI Medical Skin Care has been clinically proven by the University of Liège (Belgium).

# NAQI®

## Body Lotion

### Protection

#### Objectives

For daily care of dry skin.

#### Solution

NAQI® Body Lotion optimises the barrier function

- Immediate and lasting intensive hydration
- Easily absorbed into the skin
- Restructures and repairs the natural skin balance
- Protects the skin
- Spreads easily.

#### Use

Apply once or twice a day to feet and the whole body.

# NAQI®

## Body Soap

### Hygiene

#### Objectives

Mild cleansing of the skin.

#### Solution

Cleansing with a “soap-free” soap is important. The Naqi Body Soap ensures that the natural protective layer of the skin is not damaged. It is a very mild cleanser, suitable for daily cleansing of sensitive skin:

- Mild and effective cleansing
- Nourishes the skin without making it feel taut
- pH skin neutral.

#### Use

Apply to damp skin, cleanse gently, rinse off carefully with lukewarm water and dry.

## 10 tips for healthy and radiant skin

- Cleanse your skin daily using a soap-free cleanser such as NAQI® Body Soap.
- Cleanse your skin with lukewarm water, not hot water. Hot water dehydrates the skin.
- Dry your skin thoroughly after cleansing, especially between your toes.
- Apply an intensively hydrating cream such as NAQI® Body Lotion or NAQI® Body Care and NAQI Foot Care daily.
- To reduce and prevent irritated skin, use NAQI® Body Care and NAQI® Foot Care.
- Take special care of your skin during cold and dry months.
- Drink enough water to adequately hydrate your skin.
- Check your body daily for dry, red spots which could lead to infections.
- Consult your physician / dermatologist if you have any infections or wounds.
- Reduce the potential risk of infection for feet during summer by wearing shoes that protect against small cuts or abrasions. Change your socks regularly and wear breathable shoes.
